

Vendstop[®]

About Us

- Vending machine business born after diversification of other family owned business.
- Started market trials by importing machines in the year 2000 and then own R&D and manufacturing from the year 2006, through older group company.
- Only domestic manufacture and supplier at the time with major market share.
- Supplied few thousand machines in the Indian market from 2006 to 2015 through this company.
- Exclusive tie up with foreign partner company in 2015 to supply own brand of highest quality machines and support large quantities of 3000-4000 machines a year. As a result of this, Vendstop was born.
- Shifted main manufacturing overseas completely in 2017, with certain assembly and customization being done in India.
- Setup own base in Dubai, UAE in early 2022 to cater to Middle Eastern market.
- Have supplied over 4000 machines since then, in the Indian and Middle Eastern Market.

Why Vendstop

- One stop shop for all vending needs.
- Modern & sleek design machines for simple operations.
- Upgrading with time.
- Minimal maintenance cost due to excellent quality of machines.
- Nationwide presence with service & support.
- 24/7 availability of service over phone for troubleshooting.
- Customized vending machines for specific projects.
- Wide range of machines with cash and cashless payment options.

Our Capabilities

- Tools/PPE Vending machine for factories where employees can vend tools/PPE and consumable items from the machine, automating the process of reporting and tracking of each tool/PPE used by specific employee. This leads to reduction in wastage of inventory while saving cost.
- We are offering machines dispensing perishable and hot products like samosa, puffs, idli etc. where the temperature is about 45-50 degree Celsius.
- Other range of machines include elevator/lift and conveyor belt machines for dispensing sensitive items such as milk pouches, glass bottles, packed pastries, etc.
- We also involve into projects by teaming up with food and beverage brands to strategize and launch their products through vending.
- We can design and manufacture customized machines as per the customer's requirements.
- All our machines can accept digital payments, smart card payments, cash payments, etc. through popular third party systems available in India and worldwide.
